AI Usage Log — PA3

November 14, 2026

Date	Member	Tool	Task	What AI did	What was changed by human	Notes
2026-10-27	Trần Lê Anh Tuấn	Codex	SCRUM-19: Build 1 API, state-machine, and token contract	The PR description states that Codex assisted with drafting the specification.	Tuấn reviewed and revised the proposed contract; the PR description says peer review was still pending at that point.	Disclosed in PR #8. Record this as PA2 use unless Tuấn confirms it also applies to PA3.
2026-10-29	Trần Lê Anh Tuấn	Codex	SCRUM-20: Project Plan	The Project Plan idea was drafted with Codex assistance.	Tuấn reviewed and edited the draft	Disclosed in PR #12.
2026-11-09	Nguyễn Đình Thiên Lộc	Claude Code	SCRUM-43: CI migrate and seed job	Wrote the gated `migrate-seed-db` job in `ci.yml`	Lộc reviewed and opened PR #17	The job skips until SCRUM-41 lands, so it is not yet proven against a real database.
2026-11-10	Nguyễn Đình Thiên Lộc	Claude Code	Sprint review status check; corrections to `SPRINT_REVIEW.md` and `Changes.md`	Compared the repo with the PA3 requirements and drafted the corrections	Lộc decided the scope and reviews every change	Replaces claims that FG-03 was done with the real status.
2026-11-14	Trần Lê Anh Tuấn (24125107), AI Orchestrator & Analysis Lead	Codex	SCRUM-49: shared account UI, typography, tests and navigation review	Assisted with React/CSS changes, local Vietnamese fonts, specification updates, mocked-boundary tests and before/after captures	Tuấn inspected the preview, asked to waive Figma edits after checking with Triết, and authorized finishing the review handoff	Evidence and review findings; Lộc's review and merge pending. No real account or media operation.
